defeated at Henley in his attempt to win the Diamond Sculls, returned here to-day on the steamship Minnehaha, of the Atlantic Transport line.

'I have no excuse to offer over my defeat." he said, "for I was besten fairly, but I have learned many things my trip over there and I will try again next year.

"I guess my beating Scholes surprised the talent over here." Titus continued smilingly. It seemed to be a foregone conclusion among the rowing fraternity in this country, before I started, that I would lose to the Canadian. The truth the time. Scholes defeated me in the Harlem regatta because of my pool condition. I had had many things to worry me then and had been suffering insomnia. Scholes of course ran away from me, but I had no doubt of 'I would like to add that I think the English are the fairest sporting people

I have ever met. Everything is on the square and the judges are most impar-tial."
"My hands are soft now and I am out of condition. But I am going to begin work again this afternoon and if I can get right I will row in the National championship regatta."

If the cold shoulder were given to Saratoga by New Yorkers this season it would probably teach villagers and race track alike that racegoers, while they are lambs, are not yet ready to be fleeced.

The situation in Saratoga is absurdly ridiculous, and it is doubtful if the golden shower so expectantly awaited will descend on its sacred precincts.
